

NAVDEEP RAUSHAN

Full-Stack Developer | Node.js | React.js | Next.js | Express.js

CONTACT

- Bengaluru, Karnataka
- +91-9534765781
- n.navdeepraushan98@gmail.com
- navdeepraushan.in
- linkedin.com/in/navdeep-raushan-656895157
- github.com/Navdeep434

CORE SKILLS

- React.js, Next.js
- JavaScript (ES6+)
- Tailwind CSS, Bootstrap
- HTML5, CSS3
- Node.js, Express.js
- REST APIs
- JWT Authentication
- Role-Based Access Control
- Socket.io
- MySQL, MongoDB
- Git, GitHub
- Postman, Jira
- Redis, Docker

CORE STRENGTHS

- Full-stack web development
- Secure API design
- Authentication and RBAC
- Real-time applications
- Database optimization
- Responsive UI development
- Payment integrations
- Agile collaboration

DOMAIN EXPERIENCE

- Procurement and P2P
- Vendor management
- Hospitality and elder care
- Astrology and e-commerce
- Telecommunications
- Online gold marketplace

TECHNOLOGY STACK

- Node.js / Express.js
- React.js / Next.js
- MySQL / MongoDB
- Socket.io / Redis
- Docker / Git / GitHub

EDUCATION

**Bachelor of Technology
Mechanical Engineering**
Techno Engineering College Banipur
2016 - 2020 | DGPA: 7.65

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building scalable web applications using Node.js, Express.js, and React.js. Experienced in designing secure RESTful APIs, implementing JWT authentication and RBAC, and delivering production systems across procurement, hospitality, telecom, and e-commerce.

PROFESSIONAL EXPERIENCE

Full Stack Developer | RCS Tech Jul 2025 - Present

Bengaluru, Karnataka

- Developing enterprise Vendor Management and Procurement-to-Pay systems using Node.js and Express.js.
- Designing secure RESTful APIs with JWT authentication and role-based access control.
- Building automated compliance reporting modules for regulatory and operational workflows.
- Optimizing MySQL queries and backend services for scalability and performance.

Full Stack Developer (Freelance) | Independent Aug 2024 - Jun 2025

New Delhi, India

- Developed NandNiwas, an old age home and resort management system with room, resident, and invoice modules.
- Built 96Astro with course purchases, real-time text/video consultations, and integrated e-commerce.
- Designed admin modules for astrologer management, orders, and user activity monitoring.
- Implemented real-time communication with Socket.io and secure payment workflows.

Full Stack Developer | Einsicht Technologies Jan 2023 - Aug 2024

Hyderabad, India

- Developed a telecom CRM managing SIM cards, tariffs, smartphones, and customer lifecycle workflows.
- Built responsive React.js applications and designed Node.js/MySQL REST APIs.
- Collaborated with cross-functional teams to deliver production-ready solutions.

Full Stack Developer (Freelance) | Einsicht Technologies Apr 2022 - Dec 2022

Hyderabad, India

- Developed Metallorum, an online gold listing and selling platform.
- Implemented real-time pricing updates through API integrations.
- Designed secure backend architecture and integrated payment gateway workflows.
- Built a dashboard for managing listings, transactions, and analytics.

SELECTED PROJECTS

Vendor Management & Procurement-to-Pay Platform

Enterprise procurement workflows covering vendor onboarding, invoice processing, approval hierarchies, and compliance automation with JWT authentication and RBAC. Node.js | Express.js | MySQL | JWT

NandNiwas - Old Age Home & Resort Management System

Room booking and billing automation for long-term residents and short-term resort stays, with admin dashboards for resident tracking and invoicing. Node.js | React.js | MySQL

96Astro - Astrology Platform & E-commerce System

Course marketplace with integrated e-commerce and real-time text/video consultations between users and astrologers. Node.js | React.js | Socket.io

Telecom CRM Tool

CRM platform managing SIM cards, tariffs, smartphones, landline, and data services, with offer-management workflows. Node.js | React.js | MySQL

TECHNICAL PROFILE

- Builds secure RESTful services with JWT-based authentication and role-based access control.
- Develops responsive interfaces with React.js, Next.js, Tailwind CSS, and Bootstrap.
- Works across relational and document databases using MySQL and MongoDB.
- Uses Git, GitHub, Postman, Jira, Redis, and Docker in development workflows.
